A COMPLETE LIST OF THE MEN TRANS-PORTED BY THE CHEROKEE.

Washington, July 11 .- The following is a complete list of the sick and wounded soldiers brought to Port Tampa on the transport Chero-It was sent to the Adjutant-General's office by Major Rafferty, surgeon-in-charge. The list of officers was made public last night. About two hundred of the men have been taken by the hospital train to the McPherson Barracks, Atlanta. The letter following each name designates the troop or company of the soldier:

FIRST CAVALRY. FIRST CAVALEY.

FIRST Sergeant CHARLES KARSTON, A; Sergeant FRANK HUNDERTMARK, C; Corporal FRANK MORGAN, D; Privates MARTIN L, ROBERTSON, A; EPHRAIM J, NIX, K, GIDEON O DOHNAGE, B; ALLAN W, MALLEN, I; HUGH L, DOUGLASS, C; HENRY FOSTER, D; AUGUSTUS CRUPENSTAH, D; HUBBARD TOWNSEND, I; FRANK B, WIEL, A; PATRICK LOVEY, K. THIRD CAVALRY.

JAMES CARROLL.

The father and relatives of James Carroll, of Company M. 71st Regiment, who was wounded in the fight before Santiago a fortnight ago, are preparing a cordial home-coming for the young soldier. He is now at Key West, and during the next day or two will come to New-York. Carroll is twenty-five years old, and was employed by Charles Broadway

WILLIAM SUTTON.

William Sutton, wounded, is a corporal of Company H. 71st Regiment. He is thirty-three years old and lives with his mother at No. 377 East Tenthst. Corporal Sutton was at all times one of the most active members of the 71st and always interested in its welfare. When the Governor sent out orders to obtain the feelings of the men in the different militia organizations in regard to volunteer-ing Sutton spent all his spare time at the armory getting the men to promise to volunteer, and he worked hard to recruit his company up to the desired strength. He got up from a sick bed at the time his company was ordered to go to camp and took charge of the State's property there. In answer to a telegram sent to Key West and forwarded to where he was yesterday morning his mother received the answer that he was wounded in the body and was getting along nicely.

WILLIAM J. AHERN.

William J. Ahern, corporal of Company I, 71st Regiment, wounded, lives with his parents at No. 459 Lexington-ave. He is twenty-one years old. In September last he joined the 71st Regiment, and shortly before the departure of the regiment he was promoted to the rank of corporal. Ahern was born in New-York City. Prior to his departure he was in the bicycle business in this city.

GEORGE F. FEATHERSTONE.

George F. Featherstone, Company F. 71st Regiment, wounded, lives with his mother and sister at No. 200 East Thirty-fifth-si. The wounded soldier is only twenty-two years old. Despite his youth he has served five years in the 12th Regiment, from which he was honorably discharged in March last. As soon as war was declared he enlisted in the list Regiment. For several years he has been a travelling salesman for J. W. Mason & Co., furniture dealers, at No. 406 Pearl-st.

MALCOLM BARRETT.

Malcolm Barrett, Company M. 71st New-York Volunteers, whose name is in the list of men brought to Tampa by the transport Cherokee, is the youngest son of Captain George P. Barrett, of

He is well known in interscholastic athletic circles. He won the gold medal offered for the best batting average by the Crawford baseball team and played left end on the Trinity School football team of last season.

JOHN KELLY.

John Kelly, of Company D. 71st Regiment, wounded, lives with his widowed mother at No. 230 East One-hundred-and-twelfth-st. He is twenty-one years old, was a medical student, and has beone years on, was a menical student, and has ob-longed to the list Regiment for several months. Writing to his mother from Siboney, on July 2, the day after he was shot, he said: "Before this can reach you, perhaps, you will hear that I was or dered to the rear yesterday with the wounded. Don't worry, mother, for it is of small consequence. It was in the hottest of the fight that they hit me. I was dressing the wounds of a fallen comrade at the time and did not know I was hit until an officer touched me on the shoulder with his sword and told me I was wounded. I did not want to give up, but he ordered me to the rear. It is really a little thing, and you must not worry about it.'

MORRIS FUSTEN.

Morris Fusten, private in Company A, 71st Regi-ment, wounded, is twenty-two years old, and lives at No. 64 Eldridge-st. His mother keeps a saloon at this address, and he had taken charge of it be-fore he went to the front. He enlisted in the regiment four years ago. He was wounded in the foot, and, according to a message received from him yesterday, is doing well.

JAMES J. M'DERMOTT. Sergeant James J. McDermott, wounded, is twen-ty-three years old. He lives with his cousin, James

Richards, at No. 226 West One-hundred-and-twenty-FREDERICK T. WALTERS.

Frederick T. Walters, wounded, a musician in the Army, lives at No. 538 East Eighty-fourth-st. He is twenty-six years old, and a baker by trade. became a member of the 71st five years ago.

CHARLES MAITH.

Charles Maith, of Company L, wounded, is twen-ty-seven years old, and joined the 71st Regiment seven years ago. He lives at No. 172 East Eightyninth-st, and was employed at the time he went to the front in a beer-bottling establishment at East End-ave. and Eighty-fourth-st.

HAWAII'S RED CROSS SOCIETY.

TO NURSE WOUNDED AMERICAN SOLDIERS OF MANILA EXPEDITIONS.

July 9, advised the War Department of the receipt of a dispatch from the United States Minister at Hawaii, dated June 11, stating that a Red Cross society has been formed there, having for its immediate purpose the caring for the sick American troops passing through Hawaii to Manila, or whom it may be necessary to land on their return. The society is provided with funds, buildings and an efficient corps of nurses.

The following is a list of the officers of the society: President, Mrs. Harold M. Sewell; first vice-president, Mrs. S. B. Doie; second vice-president, Princess Kalulani; secretary, Mrs. F. R. Day; trassurer, Mrs. P. C. Jones; Executive Committee, Mrs. W. F. Irwin, Mrs. W. F. Allen, Mrs. C. B. Cooper, Mrs. M. C. Widdifield and Mrs. C. M. Hyde. it may be necessary to land on their return. The

WOUNDED SOLDIERS IN A WRECK.

Washington, July 11.-Surgeon-General Sternberg received a dispatch to-day from Surgeon Richards, saying that the hospital train bearing the wounded to Fort McPherson, near Atlanta, was in a rearend collision six miles south of High Springs, Fla. end collision six miles south of right opinings, ria., at 8 o'clock last night. No one was hurt, the dispatch said, but the private car was demolished, General Sternberg says the demolition of the private car will not seriously interfere with the efficiency of the hospital train.

Atlanta, July 11.-The hospital train bearing the Atlanta, July 11.—The hospital train bearing the wounded soldlers from Tampa arrived at Fort Mc-Pherson to-day. All the men are doing well, and none of them knew of the accident at High Springs, Fia., until informed by the surgeons.

MAJOR BURBANK IN THE CITY. who has been attached to the staff of the Governor of the State of New-York for many years, was in of the State of New-Tork for many years, was new-York yesterday, and it was rumored that he had given up his place in Albany in order to go into active service. Inquiry showed that there was no foundation for the rumor and that the Major would continue to remain in Albany and serve there with Adjutant-General Tillinghast.

PRESIDENTIAL APPOINTMENTS. Washington, July II.—The President made the following appointments to-day:

RICHARD O. JEARDEAU, to be general inspector of furniture and other turnishings, Treasury Department, TREDERICK B. SPRIGGS, of New-York, to be agent for the Indians of the Nevada Agency, in Nevada. WELCOME NEWS AT CAMP HAVEN. OFFICERS FOR NEW BATTERIES. SHIPS AT NEWPORT NEWS.

FIRST CONNECTICUT VOLUNTEERS, NOW AS SOON AS GENERAL CARROLL'S NOMINA- THE CINCINNATI SAILS FOR KEY WEST-SCATTERED, ORDERED TO MOBILIZE.

Camp Haven, Niantic, Conn., July 11 (Special).— The news that the 1st Connecticut Volunteers, now doing garrison duty at several points along the New-England coast, is to mobilize here within a few days has caused a buzz of expectancy in camp. For several weeks past the 1st Regiment has been distributed as follows: Colonel Burdett, field and staff officers, Companies A. E. G and H. at Fort Knox, Bucksport, Me.; Lieutenant-Colonel Hammond and Companies D and I, Plum Island, N. Y.; Companier F and K, Fort Preble, Portland. Me.; Company C, Fort Constitution, Portsmouth. N. H., and Company B. Gull Island, N. Y. Company L. of Meriden, recently added to the 1st Regiment, has just arrived at Bucksport, and Company M, of Danbury, another additional company, is about ready to muster in.

General Gillespie, of the Department of the East, has ordered eight companies of the 1st to tory to going to Camp Alger. From there it is believed that the regiment will be sent with the expedition to Porto Rico.

Ever since the 1st Regiment was divided and

sent to summer resort duty its officers and their

friends have been endeavoring to have it assigned to more active service. The pressure of political and personal influence has been brought to bear upon President McKinley and Secretary Alger, mainly through United States Senator Hawley, Congressman Henry and Adjutant-General Haven, of Connecticut, and on Sunday the welcome news came that the regiment was to have a chance at

The 1st will be encamped here upon the ground occupied by it four weeks after it first assembled. The companies are expected within a day or two. The Danbury company will come direct here as soon as mustered in, and the companies from Gull and Plum islands will be brought over on lighters. No attempt has been made to conceal the fact that the officers and men of the 1st have chafed under the enforced inactivity, and the apparent neglect of the regiment. At Fort Knox, it is said, many of the men have no uniforms or rifies, and not a round of ammunition has been issued to those who have arms. Several men have deserted from Company B, at Gull Island, on ac-count of the dreary monotony of that isolated post in Long Island Sound. When the regiment reaches here this post will contain nearly three

thousand men.

The 3d Regiment is still here drilling daily as well as possible with less than half of the menuniformed or provided with rifles. Thus far little regimental of battailon drill has been attempted, the work being principally company movements. Considering the fact that more than half the men came direct from civil life, without any experience in the National Guard, the organizations have developed a fine degree of efficiency in military managements.

weloped a fine degree of efficiency in military maneuvres.

The twelve captains in the 3d have drawn lots to determine their seniority. Captain Hagberg, of Company C, Norwich, won the seniority, and his company will occupy the right of the line. Captain McIntyre, Company G, Futnam, was second and Captain Kirkland, Company I, New-London, third. Captain Dorsey, Company A, New-London, three Captain Dorsey, Company A, New-London, the Month of the last in the drawing.

Battery B, Heavy Artillery, at Fort Griswold, to day received a consignment of army mules and wagons. Battery H 2d Artillery, Regular Army, will leave Fort Trumbull on Wednesday evening by boat for Jersey City, where the command will take a train direct to Tampa, F.a., and thence will embark for Cuba.

NEW REGIMENTS RAPIDLY FILLING UP

FOUR COMPANIES OF THE 2018T TO BE READY TO DAY-PREPARING FOR THE 203D NOW.

The work of recruiting the 201st Regiment is be ing pushed forward with energy. The number of men applying at the armory of the 12th Regiment, Columbus-ave and Sixty-second-st., where the 20ist is being recruited, is so great that, even by working twelve hours each day, the examining surgeons cannot find time to examine all of them Company I is now nearly full. Most of its mem bers were drawn from the 171st Regiment. In the other companies already recruited there are men from the 169th, 112th and 23d regiments. Last night it was announced that four companies, A. C. D and I, were complete and ready to start for camp. The first detachment for camp will probably set

out te-morrow. Six hundred men have been taken from the Provisional 109th Regiment to bring the 3th Regiment, now at Camp Thomas, up to the full army strength. This leaves 350 men, who will form the strength. This leaves 550 men, who will form the nucleus of the 195th, which it is hoped will be brought up to the regular strength in a short time. Recruiting is going on steadily for the Provisional 122d Regiment. Four companies are now nearly completed, and some of the commissioned and non-commissioned officers have been nonmasted. They will not be regularly appointed until the companies are formally mustered in. This will be done next Monday night.

DRILLING AT CAMP BLACK.

MEN FOR THE SEVENTY-FIRST REGIMENT EX

Clad in the uniforms which were distributed on Sunday and yesterday the men recruited for the list Nev-York Volunteers made a soldierly appearance yesterday. They had rifles, and the drill-masters were hard at work all day, showing the men how to handle them. Many of them had served in the National Guard before, and were familiar with the motions and requirements. The presence of these former soldiers in the rank makes the handling of the men much easier than it would be otherwise. They serve as corporals and guides and keep the men in good shape.

Lieutenant Weigler, of General Pennington's staff, who is in command of the camp grounds, as the representative of the Government, says he does not know when he will get away. He hopes some of the men who are to assemble under the second call will arrive before the men of the first go away, for he is receiving a large amount of stuff for the new men, and wants it properly guarded.

The men in camp here now are receiving the

sum for the new men, and wants it properly guarded.

The men in camp here now are receiving the Regular Army food, and this is supplemented by supplies given by the farmers. Fruits and vegetables are left daily at the camp by market gardeners. Some of these stop on their way to Manhattan or Brooklyn, in the night, and drop off a harrel of mixed stuff, which they have taken along as extra for the soldiers. The men thus have plenty of everything, and are saving a good pertion of their army rations.

The Long Island Railroad will resume trains to Camp Black station as soon as the regiments begin to arrive. At present it costs visitors to the camp 31 for hack hire after they reach Garden City.

SENDING COMFORTS TO THE 71ST. The 71st Regiment Aid Society in The Bronx whose members are banded together to furnish pecial supplies for soldiers of the 71st who live special supplies for soldiers of the list who live in The Bronx, held a meeting last night, at One-hundred-and-seventy-sixth-st, and Park-ave. The secretary's report, which was read, showed that six boxes of supplies had been forwarded to the front last week, and that since the previous meeting \$21450 had been collected.

CASE OF FREEMAN HALSTEAD.

EFFORTS TO HAVE HIS SENTENCE MITIGATED. London, July 11.-The Parliamentary Secretary for the Foreign Office, George N. Curzon, replying in the House of Commons to-day to a question on the subject of the arrest of the Canadian war correspondent, Freeman Haistead, who was made a prisoner at Porto Rico and sentenced to nine years' prisoner at Porto Rico and sentenced to nine years' imprisonment for taking photographs of the fortifications at that place, said that recent reports showed that the conditions of Haistead's imprisonment had been altered, as they were threatening seriously to affect his health.

The British Ambassador at Madrid, Sir Henry Drummond-Wolff, had, therefore, been instructed to make representations to Spain, with the view of securing more humane treatment for the prisoner, and he had expressed the hope that the latter's sentence of nine years' imprisonment would eventually be mitigated.

RENEWED STORY OF CUBAN CRUELTY. Savannah, July 11.-Privates James E. Keller, F. C. Knepule, C. A. Goodman, James C. Carroll and James Brennan, wounded soldiers of the 71st New-York, started to-day for New-York on the steamer Kansas City. Private J. D. Hacksteer, Troop C, 1st United States Cavalry,

was with them. He was shot in the neck at Siboney on July 1 He says that when the Spanish continu

TIONS ARE APPROVED, RECRUIT-

ING WILL BEGIN. With the desire of carrying out immediately the orders of Governor Black to recruit the three batteries of light artillery which this State is expected to supply under the second call for troops, General Howard Carroll, chief of the artillery of the State, will to-day submit the selections he had made of officers to command the new batteries. It is anticipated that there will be no delay on the part of the Governor in acting upon General Car-roll's recommendations, and just as soon as the chosen officers have been commissioned the work recruiting will be begun and pushed with the utmost vigor.
Governor Black's resolve to form new batteries

for acting service has caused great disappointment among the members of the existing organizations and in consequence the four State batteries have assemble at Camp Haven and three companies to not only been brought up to their full strength, but proceed to Fort Trumbull, New-London, prepara-additional men have been enlisted to fill possible abilities. The Governor, however, does not think it wise to decrease the defensive forces of the State, as they now remain, and feels himself obliged to refuse the applications of existing batteries for assignments to active service. In order to minimize as much as possible the blighted hopes of the artillerymen, Governor Black has ordered that the men selected to command the new regiments be selected from the junior officers of the State batteries, and it is probable therefore that many of the rank and file will resign from these batteries and enlist in the new corps.

To a Tribune reporter General Carroll said yesday that the new batteries would undoubtedly

terday that the new batteries would undoubtedly be formed in a short time. Each of the regular batteries, he said, had a large surplus of men on its roils who had enlisted with the expectation of going to the front, and these men would form the nucleus of the new organizations. It is Gengral Carroll's intention that two batteries shall be recruited from this borough, and the third from some point up the State, probably Rochester. As to the names of the officers to be submitted to the Governor for commissions, General Carroll will depend upon the recommendations of the captains of the respective batteries.

Captain Wilson of the 2d and Captain Rasquin of the 3d will make the recommendations for the commissions in the batteries to be formed in this borough, and Captain Olimstead of the 6th Binghamton Battery, will probably have the potential voice in naming the new commanders of the up-State regiment. While each of these officers regrets deeply that the plan of recruiting resolved upon by the Governor will prevent them and their batteries from going to the front, they will cheerfully obey orders, and have already conveyed to General Carroll their willingness to help in every way possible in the making up of the new batteries. The recruiting of the New-York contingent will begin in the armories of the 1st and 2d batteries as soon as the new officers obtain their com-

considered certain of appointment to the new commands.

The incident of the asserted premature publication of General Howard Carroll's report upon the condition of the New-York troops in the Southern encampments may be regarded as closed. Adjutant-General Tillinghast has denied that there was ever any foundation for the report that General Carroll was to be disciplined for giving out to the press his report before it reached the Governor. Yesterday General Carroll informed a Tribune reporter that his report was in the hands of the Governor four days before it found its way into print. "I did not give out the report," said General Carroll, "and if there is any complaint coming, it is I who should make it for the unjustifiable statements which have appeared about me, in connection with this matter, in certain newspapers of this city."

DISCUSSION ON THE CARROLL REPORT. COMPARISONS DRAWN WITH THE CASE OF GEN-

The report of General Howard Carroll on the camps is still the subject of much comment in Na-tional Guard circles. The fact that some people said that the report did not take its regular course. later, caused comparisons to be drawn between the

case and that of General McLewee.

In referring to the affair it was also stated that General McLewee had "been cashiered" for committing a similar offence. General McLewee said he could not discuss the Carroll report, but he wished it understood that he had never been cashlered and no charges had ever been preferred against him "I was simply dismissed," he said, "because some people said of my report, as they aid of General Carroll's, that it had been prematurely published. There has been much written or the affair, but the facts as to the original report have never been published. A copy was given by Colonel Ashley W. Cole to the Governor on December 29, 1896. This was one of three copies sent as printer's proofs to my office and given to Colonei Goodman J. Green, who was my assistant. The copy was shown to Governor Morton so that he might see that the criticisms which had been he might see that the criticisms which had been anticipated were not harsh or of a personal nature. The printed reports were not delivered the next day, and for that reason another one of the three proof copies was drafted into the service and filed in the Adjutant-General's office with an explanation as to why no official copy had been sent. This made the copy "official." On December 30, at the p.m., a copy was sent to The Tribune, hours later than the delivery at Albany. And still there are thousands who believe that the McLewee report was given to the public before it went to the Governor. There is probably no more ground for accusing General Carroll of "giving away" his report than there was for making similar charges against me."

TO MEET THE ARMORY BOARD.

THE ADJUTANT-GENERAL HERE TO CONFER

REGARDING STATE ORGANIZATIONS. arrived in the city on Saturday, said yesterday that he would be detained here for several days on business connected with the military organizations of the State. To-day he will meet the members of the Armory Board, who have authority on all questions pertaining to armories, whether owned by the city or the State. The members of the Board are the Mayor, the Controller, the dent of the Department of Taxes, the president of the Board of Public Improvements and General McCoskry Butt. It is understood that the most important matter to come up before the Board is the still unsettled question of the l3th Regiment

Armory.

To-morrow General Tillinghast, accompanied by General Howard Carroll, will inspect the fortifications in the neighborhood of New-York in which various detachments of the 22d Regiment are stationed. General Carroll, as is known, has been commissioned by the Governor to recruit three new batteries. Various questions as to the disposal of these new batteries will be considered by the Adjutant-General and General Carroll.

WOUNDED MEN IN WASHINGTON.

Washington, July 11.-Secretary Alger shook hands to-day with the first of the wounded mer direct from the field. A small party of the wounded arrived here during the day, consisting of Captain Brereton, of the 24th Infantry; Lieutenant McCoy, 8th Cavalry; Lieutenant Rough Riders; Lieutenant Mead, 21st Infantry, and Lieutenant Trall, 71st New-York.

Lieutenant Trail, 71st New-York.

They were on leave, and on their way home to recover from their wounds. Lieutenant McCoy was on crutches, and all of them showed they had been in the hands of the surgeons. About noon Lieutenant Cash, of the Rough Riders, went to the War Department and reported to Adjutant-General Corbin. The latter showed the wounded officer through to Secretary Alger's private office. The Secretary was engaged for the moment with Senator Allison, but the latter, noticing the wounded man, arose and said "After you, sir."

The Secretary warmly greeted this first eye-witness of the fight. He held out his left hand to the Secretary, for his right hung in a sling, the arm having been shattered during the first day's fight at Santiago. The Secretary listened with much in terest to the recital of conditions prevailing, and assured his visitor that he and all the other wounded would receive attention and consideration.

ACTIVE WORK IN RECRUITING.

202d Regiment, New-York State Volunteers, was begun in this city to-day. Detachments of men from the National Guard companies at Amsterdam, Hud-son, Catskill, Watertown and Ogdensburg reported for physical examination early this morning; the Hudson company arrived in the city at 4:25 o'clock. There are at present here 200 recruits from out of the city. The Hudson company was examined this afternoon. Eighty of the 105 men needed for the Syracuse company in the regiment have been re-cruited.

THE YANKEE MAY SAIL TO-DAY.

The United States auxiliary cruiser Yankee has taken on all of her ammunition and supplies, and s now awaiting orders to sail. She expected to ing on our wounded men and on the Red Cross flags, our men did not hesitate to turn over the Spanish prisoners to the Cubans, who cut off their heads. The practice still continues, Hacksteer declares, in spite of General Shafter's denials.

GUNS FOR THE BUFFALO.

[BY TELEGRAPH TO THE TRIBUNE.] Newport News, Va., July 11.-The protected cruiser Cincinnati, Captain Chester, weighed anchor at 7 o'clock this morning and started on her journey to Key West, after having been laid up at the Navy Yard a month for repairs and general overhauling. This morning at daybreak she came over to Old Point, and, after taking on several officers who came from Washington, Captain Chester ordered his ship ahead. An hour and a half later she passed out of the Capes bound for Key West.

Captain Chester is authority for the statement that his ship will proceed first to join the blockading squadron, off the Cuban coast. After that he does not know where he will go, although he hopes to get a place in Commodore Watson's Eastern Squadron. The repairs to the Cincinnati were much more extensive than at first anticipated. In addition to having her superstructure, which was damaged at Cienfuegos, partly rebuilt and her boilers and condenser retubed, there was considerable work on her machinery and to her hull, making it necessary for her to go into the drydock for several days. The cruiser took on provisions all day yesterday, and has on board supplies for an unusually long voyage, although that seems characteristic now of all the naval vessels that leave Hampton

The dynamite cruiser Buffalo, which was sent to the Navy Yard by the shipyard officials because they did not care to undertake to complete the work on the vessel by August 1, is being stripped to receive her armament of 5inch guns. It will be necessary, however, to send the Buffalo back to the shipyard in order to get docking facilities, the Government basin at the Navy Yard not being sufficiently large to receive the ship.

Another detachment of Naval Reserves from Buffalo arrived at the yard this morning, and went aboard the training-ship Franklin. Forty marines who have recently seen hard service at Guantanamo, and whose terms of service had expired, causing them to be ordered home, were sent this morning to Portsmouth, N. H., having re-enlisted almost as soon as they arrived. Their duty at Portsmouth will be to guard the Spanish prisoners taken there by the St Louis. Equipments for the use of these men, as well as for twenty-five other marines who preceded them last night, were shipped to Ports-

mouth this morning.

At the Navy Yard the Commandant has dispensed with the services of all civilian watchmen, in accordance with instructions received from Washington, and marines have been sub-

The auxiliary cruiser St. Louis is expected to arrive here the latter part of this week from Portsmouth, N. H., for coal, and possibly to receive an armament of ten 5-inch guns at the shipyard. The Chesapeake and Ohio Company will coal the cruiser, but as yet the shipyard has received no orders about arming her, it being a choice between this yard and Cramps. The St. Louis will bring the Spanish officers, including Admiral Cervera, to Hampton Roads, where they will probably be transferred to a steamer which will take them to Annapolis, as it is not likely that the big cruiser will expect to run all the way to the Naval Academy. It is reported at Old Point that the submarine mines in Hampton Roads, controlled from Fort Monroe, will shortly be removed, now that there is no longer any danger of attack from the enemy's ships. This will enable the transportation companies to run their ships on their own schedules, which they are anxious to bring about. The auxiliary cruiser St. Louis is expected to

It is reported this evening that a transport bearing wounded from Santiago to Fort Monroe Hospital is outside the Capes. Another report has it that a ship is sighted off Old Point, but this lacks confirmation.

The surgical force in the Fort Hospital has been expecting two ships carrying wounded all day. The field tents are in readiness to receive them. There are now five hig colliers loading coal for Key West and Santiago at Lambert's Point.

BARTLETT SUCCEEDS ERBEN.

THE REAR-ADMIRAL'S STATEMENT REGARD-ING HIS RETIREMENT.

Rear-Admiral Erben, who has been in charge of the coast-defence patrol fleet ever since it was or-ganized, has been retired from active duty and will e succeeded by Captain John Bartlett, who will have charge of the work, with headquarters at Washington, instead of in this city.

Numerous stories were affoat yesterds ause of this change, one of them being that Admiral Erben had been ordered to adjourn the Board in charge of coast defence and reconvene it at Washington, and that he had delayed in doing this, with the result that his successor was appointed. Rear-Admiral Erben was one of the few officers on the retired list who were called back to active duty when war was declared. His salary on the retired list is \$4,500 a year, and while he was on active duty he received \$6,000. In answer to various in-

quiries Admiral Erben said yesterday afternoon: "It is true that I have been relieved from active duty by the Navy Department. The reason for my eing so relieved is that the work assigned to the Coast Defence Board has been accomplished. The vessels on both the outer and inner coast-defence exceptions. Of the mosquito fleet there are now on duty as coast patrol boats only thirteen vessels from the northernmost coast of Maine to the southernmost point of Texas. The remaining vessels of this fleet have been ordered to duty in West Indian

most point of Texas. The remaining vessels of that fleet have been ordered to duty in West Indian waters.

"The statement that I was relieved because I failed to obey orders from the Navy Department to transfer the Board's headquarters to Washington is without foundation to the best of my knowledge and belief. The order to make the transfer was received on the 5th inst, and directed that the change be made as soon as practicable. There was no hurry about the matter—and it was no easy thing to close the neadquarters here immediately. In addition to all the papers relating to the coast-defence system, there were all the archives of the Rodgers Board to be also removed. We were, however, ready to go to-murrow, when the new order arrived, directing the Board to proceed to Washington at once. So far as I understand, it will be practically dissolved, some of the members of the Board being assigned to other duties and Lleutenants Marshall and Kent looking after the personnel of the Naval Reserves.
"Personally, the relief is agreeable to me. The work of organizing the coast-defence system has been carried to such completion that it can very well be directed now from Washington. I had purchased passage for Europe when the war broke out, and now that the naval war, in my opinion, is ended I am glad to be set free to carry out my plan of a European trip, which I think will begin in September.

"Lieutenant-Commander Jacob W. Miller will

tember. "Lieutenant-Commander Jacob W. Miller will have charge of the coast defence in this district. There will be little for him to do, however, beyond guarding the mine-fields, to which work only three vessels are at present assigned."

FIREPROOF WOOD IN WARSHIPS.

Washington, July 11 .- Ex-Secretary Herbert had a conference with Secretary Long this afternoon on the subject of fireproof wood for naval constructhe subject of fireproof wood for naval construction. He brought with him a formidable array of
facts gathered from the newspaper reports of the
naval battle to show that fire was the element that
worked the greatest destruction among the vessels
of the Spanish squadron, and that wherever American vessels had been hit, even in the case of the
tiny torpedo-boat, they had escaped such fires because all of their woodwork was fireproof. So impressed was Secretary Long with the statement
that he has concluded to reconvene a special board
which was appointed some time ago to deal with
this matter, and which had recommended that the
use of prepared wood be curtailed in some measure
in American warships now building.

COST OF CALLING OUT NAVAL MILITIA. Albany, July 11.—The Adjutant-General's Department to-day certified to the Controller's office for payment bills connected with the calling out of the Naval Militia amounting to \$8,185 23.

FITTING OUT THE TRANSPORTS.

chased from the Atlantic Transport Company by the Government, arrived in port yesterday. She is now being unloaded and as soon as this work is completed she will be turned over to Major Summerhayes and be placed in commission as a Summerhayes and be placed in commission as a transport. Major Summerhayes is now busy fitting out the various transports which will be used in carrying troops, their horses and supplies to the Army at Santiago, as well as to the Porto Rican expedition. He has already sent south the Mississippi, Obdam and Mohawk and expects to have the Berlin and Mobile ready to sail to-day. The Massachusetis will be fitted out as a troop ship by the end of this week. Other vessels, which have been purchased will arrive this week and will be at once fitted out for duty as transports. The Manitoba, which was badly damaged by the explosion of ammunition which was being placed on her at London last week, is not now expected here for some time, as she will be repaired on the other side. FROM THE CHICKAMAUGA CAMP.

GENERAL BOYNTON SAYS THAT THE CAMP GROUND WILL BE ACTIVE, EVEN AFTER THE WAR IS OVER.

Chattanooga, Tenn., July 11 (Special).—Several hundred recruits, with a number of Army wagons, started from Chattanooga to-night on a special train for Charleston, S. C., where they will be loaded on transports for Santiago. Both recruits and wagons are for the First Brigade, which left Camp Thomas for Santiago last week. The lst Ohio Cavalry starts for Tampa to-morrow night. and other troops are under orders to move.

A trainload of fine soldiers arrived at Lytle this

mcrning. There were three full companies, forming a splendid battalion. The men were large and healthy looking, few, if any, being under 5 feet 10 inches. The personnel of each company was far above the average. Numerically each company had its full strength, 103 men, besides the officers. The three companies were L, 2th Pennsylvania; I, 5th Pennsylvania, and B, 16th Pennsylvania. The work of equipping recruits is now being given especial attention at Camp Thomas. Nearly all the regiments are filled, and the new men are rap-

idly becoming trained soluters. Four carloads of rifles were received this morning. The guns that

idip becoming trained soluters. Four carioads of rifles were received this morning. The guns that come now are of the '81 model, and are better weapons than the '73 model. The difference between them consists chiefly in the signts.

Discussing the probability of the Park being a camping-place for soluters for some time to come, General H. V. Boynton, chairman of the Park Commission, and one of the recently appointed brigadier-generals, said:

"The United States Government will be obliged to the park of the park of the united states of the property of the complex of the park o

AT THE CAMP OF ENGINEERS.

REGIMENT NEARLY ALL MUSTERED AT ENTERING SERVICE.

Camp Townsend, near Peekskill, July 11 (Special).—Company I did not get into the service today. Its muster rolls were not finished at a late hour in the afternoon. Company M, the last company of the regiment, may be ready to go in shortly after Company I. Captain Sawtelle has been busily engaged all day making the preparatory examination of his men, and the company's muster to-morrow will all depend upon the rapidity muster to-morrow will all depend upon the rapidity with which the company clerks work. Every one is anxious to see the two companies mustered, for it means the immediate muster of the regimental officers, but no one is more anxious than the members of the companies themselves. They are eager to get into uniforms and carry rifles, as their more fortunate comrades are doing, and the day for them to do so is not far off.

Companies H and K were both uniformed to-day.

Companies H and K were both uniformed to-day, and will draw their rifles to-morrow, which will make the 2d Battalion a fully armed and uniformed body. The battalion will then take its place in line with the 1st Battalion on evening parades.

make the 2d Battalion a foilly armed and formed body. The battalion will then take its place in line with the 1st Battalion on evening parades. The idea of bringing the men to camp before muster and keeping them here some time before they are sworn in has been a most excellent one, as it has developed some weaknesses not observable upon the physical examination that unfit men for field service. The rheumatic recruits are one example, and three cases of epilepsy are another. Epilepsy it is impossible to discover upon a physical examination, and if the recruit keeps still about it he is pretty apt to be passed. But the hot weather of the last week and the change in the manner of living has brought these cases out, and as none of the men had been mustered, it was a simple matter to drop them from the rolls and return them to the recruiting stations.

The instruction tent called for in last night's general orders was put up near the guard tents on the west bluff to-day. As soon as the Buzzacott ovens arrive the kitchens will be built, and the grass having been cut in the fields up the morth valley, the initial steps toward repairing the old rife range for service will soon be taken.

Supplies of various kinds still keep coming in to Quartermaster Hough, and he has now nearly everything needed for the field. Among the boxes that were plied up in his store to-day were five cases of novels and magazines sent to Major Louis L. Seaman by the Daughters of the Revolution, to be distributed among the men or used as a small circulating library. Major Seaman transferred them to Chaplain Fobes, and the chaplain will have them taken to the Y. M. C. A. tent and added to the small library there. The association tent is now in good working order, but Messre. Whiting and Anderson who have charge of it, are having an little more experience in camping out than their predecessors had. It is a little difficult to get meals at the restaurant now, and so the young men are going to board themselves and do their own cooking. They are havi

EQUIPPING MEN AT CAMP ALGER

Washington, July 11.—The officers at Camp Alger are endeavoring to complete the equipment of the Second Army Corps. The 7th Ohio recently received arms and accourrements sufficient to supply the regiment. It is said that a number of rifles furnished the 22d Kansas are entirely worthless, and

nished the 22d Kansas are entirely worthless, and, in fact, are old guns made to look new.

The 7th Illinois, 6th Pennsylvania and 3d Missouri regiments will soon receive their supplies. The 3d Virginia and 8th, 12th and 13th Pennsylvania started out to-day on a practice march. General Gobin has been presented with a handsome sword by friends. Private Moore, 6th Massachusetts, is at, Fort Myer, suffering from paralysis. Private Lanely, Company D. 12th Pennsylvania, had an operation performed for an abscess, and Trooper Stevenson, Troop C, New-York Cavalry, has an attack of typhold.

BRYAN TO JOIN LEE.

Washington, July 11.—William Jennings Bryan's regiment of Nebraska infantry was ordered to-day to join General Fitshugh Lee's corpa at Jackson-
